Ek Tha Tiger Theme X64

Ek Tha Tiger Theme is a theme pack inspired by the 'Ek Tha Tiger' 2012 Bollywood production. It contains only two wallpapers. The app can be easily installed and configured, even by inexperienced users. Once installed, the theme is automatically applied to your desktop. The pictures depict the main characters of the movie, and they also display the movie title. Thanks to the default options provided by the operating system, you can access the 'Control Panel' area, in order to make some modifications. So, you can make the pictures fill or fit the screen, or to appear centered, tiled or stretched. Plus, you can deselect or remove a picture from the list if you don't like it. Alternatively, you may set the computer to switch through the pictures at a specific time interval, starting with 10 seconds and going up to 24 hours. The lightweight app does not put a strain on the computer's resources, since it uses a very low amount of CPU and system memory. We have not experienced any issues throughout our evaluation; Ek Tha Tiger Theme did not freeze, crash or pop up error dialogs. Unfortunately, the theme pack does not come with a sound scheme. Nevertheless, Ek Tha Tiger Theme should satisfy the fans of the 'Ek Tha Tiger' movie.
