Banyasa, an Indonesian version of Qnap OS, has been independently developed by H. M. Deitel. We would like to call it an "operating system" (a name it already has). H.M. Deitel has already developed the operating system for a fast connected computer named i1 since the late 1970s. It was known as the computer mainly used for the computer science diploma and it still operates the UNIX operating system. 13. HM Deitel. Operating Systems.
